

# *Kneeguards*

## Kneeguards rubber

Berdal offers for professional and DIY-applications an extended range of kneeguards. The right choice for a type of kneeguard is determined by the kind of ground on which it is used. Berdal offers a suitable kneeguard for any application. Berdal kneeguards meet the directives, which have been put down on European standard (CE).

The knee is a joint, that delivers a substantial contribution to our mobility. Knee injury has to be avoided as much as possible. Good protection of the knee can avoid injuries. Especially in certain professions, like roadmen, tile layers, etc. a good protection of the

knee is essential. Also for activities in and round the house, it can be necessary to protect the knee joint. So avoid knee injury, wear knee protection!
